a me Final days of the project—but the journey continues!

As our European project comes to a close, I'd like to take this opportunity to highlight a key issue: the importance of preparing actual and future Career Guidance Counsellors (CGCs) to support their clients through the digital transition.

 In the final phase of the project, we piloted a training program for higher education institutions in Germany, Austria, the Netherlands, and Italy—with excellent results. All educators, decision-makers, and stakeholders can access the training materials on the project website, including:

- Practical implementation guidelines
- A dedicated webinar
- Two thematic podcasts

 A heartfelt thank you to all the students who took part in the training programs across Europe. A special thanks goes to the students of the Career Counseling and Vocational Psychology in Multicultural Contexts course at the University of Padova, Italy, where we implemented the Roundabout training model. The feedback we've received has been remarkably positive—a clear sign of strong engagement and the high quality of the learning experience.

 Huge thanks to all colleagues and partners who made this possible. Let's keep the momentum going: don't forget to include this topic in next year's academic programs!

 Watch our webinar on the guidelines  Tune into our podcast series
